## **Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards***

The Board of Curators  
University of Missouri System:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the business-type activities, the discretely presented component unit, and the aggregate remaining fund information of the University of Missouri System, a component unit of the State of Missouri, as of and for the year ended June 30, 2015 and the related notes to the financial statements, which collectively comprise the University of Missouri System's basic financial statements, and have issued our report thereon dated October 9, 2015.

### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the University of Missouri System's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University of Missouri System's internal control. Accordingly, we do not express an opinion on the effectiveness of the University of Missouri System's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the University of Missouri System's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such

an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the University of Missouri System's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University of Missouri System's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Independent Auditors' Report on Compliance for Each Major Federal Program; Report on Internal Control over Compliance; and Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations***

The Board of Curators  
University of Missouri System:

**Report on Compliance for Each Major Federal Program**

We have audited the University of Missouri System's, a component unit of the State of Missouri, compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the University of Missouri System's major federal programs for the year ended June 30, 2015. The University of Missouri System's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

***Management's Responsibility***

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

***Auditors' Responsibility***

Our responsibility is to express an opinion on compliance for each of the University of Missouri System's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University of Missouri System's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the University of Missouri System's compliance.

***Opinion on Each Major Federal Program***

In our opinion, the University of Missouri System complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2015.

### ***Other Matters***

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as Findings 2015-001, 2015-002, and 2015-003. Our opinion on each major federal program is not modified with respect to these matters.

The University of Missouri System's responses to the noncompliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The University of Missouri System's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

### **Report on Internal Control over Compliance**

Management of the University of Missouri System is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the University of Missouri System's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University of Missouri System's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified certain deficiencies in internal control over compliance, as described in the accompanying scheduling of findings and questioned costs as Findings 2015-001, 2015-002 and 2015-003, that we consider to be significant deficiencies.

The University of Missouri System's responses to the internal control over compliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The University of Missouri System's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

### **Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A-133**

We have audited the financial statements of the business-type activities, the discretely presented component unit, and the aggregate remaining fund information of the University of Missouri System, a component unit of the State of Missouri, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the University of Missouri System's basic financial statements. We issued our report thereon dated October 9, 2015, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditure of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Notes to Schedule of Expenditures of Federal Awards

Year ended June 30, 2015

**(1) Summary of Significant Accounting Policies and Basis of Presentation**

The accompanying schedule of expenditures of federal awards (the Schedule) summarizes the expenditures of the University of Missouri System (the University) under programs funded by the federal government for the year ended June 30, 2015. The Schedule has been prepared on the accrual basis of accounting.

For purposes of the Schedule, federal awards include all grants and contracts entered into directly between the University and agencies and departments of the federal government, as well as federal funds passed through to the University by other recipients. The information in this Schedule is presented in accordance with the requirements of Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. The Schedule includes only federal funds and other federal assistance received by the University and denotes the federal agency that is the source of those funds.

**(2) Research and Development Cluster**

The University's Research and Development Cluster major federal program includes those awards that are for basic and applied research and development activities and for research training. OMB Circular A-133 defines research and development as follows: research is a systemic study directed toward fuller scientific knowledge or understanding of the subject studied; development is the systemic use of knowledge and understanding gained from research directed toward the production of useful materials, devices, systems, or methods, including design and development of prototypes and processes.

**(3) Indirect Costs**

Expenditures listed in the Schedule consist of direct and indirect costs. Direct costs are those that can be easily identified with an individual federally sponsored project. The salary of a principal investigator of a sponsored research project and the materials consumed by the project are examples of direct costs.

The University and federal agencies use an indirect cost rate to charge indirect costs to individual federally sponsored projects. Indirect costs are the costs of services and resources that benefit both sponsored and nonsponsored projects and activities. The rate is the result of a number of complex cost allocation procedures that the University uses to allocate its indirect costs to both sponsored and nonsponsored activities.

The University recovers indirect costs under the federal financial assistance programs based on predetermined rates up to 53.5%, which were negotiated between the University and the U.S. Department of Health and Human Services for the year ended June 30, 2015.

**Finding 2015-001**

**Federal Agency** – U.S. Department of Education

**Federal Program Title** – Student Financial Assistance Cluster

**CFDA No.** – 84.007 (Federal Supplemental Educational Opportunity Grants), 84.033 (Federal Work-Study Program), 84.038 (Federal Perkins Loans), 84.063 (Federal Pell Grant Program), and 84.268 (Federal Direct Student Loans) 84.379 (Teacher Education Assistance for College and Higher Education Grants)

**Grant Identification Numbers** – As listed in the Schedule of Expenditures of Federal Awards for the Student Financial Assistance Cluster

**Grant Award Period** – July 1, 2014 through June 30, 2015

**Compliance Requirement** – Reporting – Special Reporting

***Criteria***

According to 34 CFR 673.3, an institution is required to file an application to participate in the Federal Perkins Loan, Federal Work-Study, and Federal Supplemental Educational Opportunity Grants programs, which includes all information required by the U.S. Department of Education.

OMB Circular A-110, *Uniform Administrative Requirements for Grant and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations*, requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures to ensure amounts reported in the Fiscal Operations Report and Application to Participate (FISAP) are adequately supported and properly reviewed.

Schedule of Findings and Questioned Costs

Year ended June 30, 2015

***Conditions Found***

During our testwork over the 2014-15 FISAP which was submitted on September 26, 2015, we noted the University (Missouri University of Science and Technology Campus) did not accurately report information in Part III Federal Perkins Loan Program. Specifically we noted that *Part III, Federal Perkins Loan Program for Award Year July 1, 2014 through June 30, 2015 Section C, Cumulative Repayment Information as of June 30, 2015, line 1.1 Borrowers whose loans are fully retired* was reported in error:

<b>Amount Reported</b>	<b>Actual Amount</b>	<b>Difference</b>
\$22,842,980	\$23,568,192	(\$752,212)

***Questioned Costs***

There are no questioned costs associated with this finding.

***Context***

The condition found impacts the completeness and accuracy of the FISAP reports submitted by the University to the U.S. Department of Education.

***Cause and Effect***

In discussing these conditions with management, this error was a result of human error and was not identified during the performance of supervisory review procedures. Reporting inaccurate FISAP information prevents the U.S. Department of Education from effectively monitoring the campus based programs.

***Recommendation***

We recommend the University review the process and procedures in place to prepare and review the FISAP and implement additional procedures to ensure the FISAP is accurate.

***Views of Responsible Officials and Corrective Actions***

The University agrees it should review the process and procedures to prepare and review the FISAP and implement additional procedures to ensure the FISAP is accurate.

The Missouri University of Science & Technology Student Financial Aid office will modify their policies and procedures to include additional monitoring and review procedures to ensure the data entered in the FISAP is accurate and properly documented before submission.

**Finding 2015-002**

**Federal Agency** – As listed in the Schedule of Expenditures of Federal Awards for the Research and Development Cluster (including ARRA expenditures)

**Federal Program Title** – Research and Development Cluster

**CFDA No.** – As listed in the Schedule of Expenditures of Federal Awards for the Research and Development Cluster

**Grant Identification Number** – As listed in the Schedule of Expenditures of Federal Awards for the Research and Development Cluster

**Grant Award Period** – Various

**Compliance Requirement** – Equipment and Real Property Management

**Criteria**

As established in OMB Circular A-110 Section 34, equipment records shall be maintained accurately, a physical inventory of equipment shall be taken and the results reconciled with the equipment records at least once every two years, a control system shall be in effect to insure adequate safeguards to prevent loss, damage, or theft of the equipment, and adequate maintenance procedures shall be implemented to keep the equipment in good condition.

**Conditions Found**

The University did not have an effective system of internal control in place to ensure compliance with the Equipment & Real Property Management compliance requirement as it relates to the Research & Development Cluster. While performing test work related to the equipment inventories, the following items were identified.

The University’s policy states it will perform a physical inventory of equipment on an annual basis to verify the existence and location of equipment. As such, the location of the asset is indicated in the equipment records as of the date of the inventory. If the equipment is subsequently relocated within the same department, the equipment records are not updated until the next physical inventory. If the equipment is subsequently transferred to another department, a Property Inventory and Change report needs to be submitted and inventory record needs to be updated accordingly. The inventories for each of the campuses occurred in early 2016. The equipment records were not updated to reflect the following asset that had been transferred to another location.

<b>Campus</b>	<b>Asset ID</b>	<b>Asset cost</b>	<b>Asset description</b>	<b>CFDA No.</b>	<b>Granting agency</b>	<b>Award number</b>

Schedule of Findings and Questioned Costs

Year ended June 30, 2015

In addition, one piece of equipment was moved subsequent to the University's fiscal year 2015 inventory process and the University could not locate this equipment at time of the inspection.

<u>Campus</u>	<u>Asset ID</u>	<u>Asset cost</u>	<u>Asset description</u>	<u>CFDA No.</u>	<u>Granting agency</u>	<u>Award number</u>
Missouri University of Science and Technology	00000002171	\$5,950	Encoder Motor	12.300	Office of Naval Research	N00024-02-C-4056

In addition, the equipment records were not updated to reflect an asset that had been disposed. As such, the following asset was included within the University's equipment records even though the asset had been disposed.

<u>Campus</u>	<u>Asset ID</u>	<u>Asset cost</u>	<u>Asset description</u>	<u>CFDA No.</u>	<u>Granting agency</u>	<u>Award number</u>
University of Missouri – St. Louis	00000003892	\$7,091	PP.SYS EGM-4	47.074	National Science Foundation	1051119*

\* Represents equipment purchase made with previous fiscal year expenditures, therefore, award numbers are not included within the SEFA for the year ended June 30, 2015.

***Questioned Costs***

There are no questioned costs.

**UNIVERSITY OF MISSOURI SYSTEM**  
(A Component Unit of the State of Missouri)

Schedule of Findings and Questioned Costs

Year ended June 30, 2015

***Context***

The conditions found impact the completeness and accuracy of the equipment records at the University of Missouri System. The University's records indicate that there are 1,518; 282; 51; and 692 assets purchased with Research and Development Cluster funding cumulatively at the University of Missouri – Columbia, University of Missouri – Kansas City, University of Missouri – St. Louis, and the Missouri University of Science & Technology, respectively.

***Cause and Effect***

The University did not have an effective system of internal control in place to ensure that equipment records were updated based upon the physical inventory performed. As a result, proper equipment records were not accurate for 15% of the assets selected for testwork at the University of Missouri – St. Louis, and for 20% of the assets selected for testwork at the Missouri University of Science & Technology.

***Recommendations***

We recommend the University strengthen its existing processes and controls relative to the Equipment and Real Property Management compliance requirement to ensure compliance with OMB Circular A-110 Section 34.

***Views of Responsible Officials and Corrective Actions***

The University agrees it must strengthen its existing processes and controls relative to the Equipment & Real Property Management compliance requirement to ensure compliance with OMB Circular A\_110 Section 34.

The UM System Supply Chain and UM System Controller's Office will work with the campus personnel to ensure all required physical inventories are completed and supporting documentation is maintained. The University has already taken steps to improve the controls and recordkeeping process around equipment inventories, but recognizes additional improvement is necessary. As a part of the improvement process, training will be provided to asset custodians on the importance of maintaining proper equipment records and notifying appropriate offices of any equipment acquisitions, transfers, and disposals. Additionally, the University will begin periodic site visits to a sample of departments to ensure the accuracy of equipment records.

**Grant Identification Number** – As listed in the Schedule of Expenditures of Federal Awards for the Research and Development Cluster and Substance Abuse and Mental Health Services Program

**Grant Award Period** – Various

**Compliance Requirement** – Allowable Costs/Cost Principles

***Criteria***

The federally approved benefit rate in the letter dated January 13, 2015 from the U.S. Department of Health and Human Services to the University, documented the benefits cannot exceed 27.37% for Columbia Campus, 21.54% for Kansas City Campus, 28.59% for Missouri Science and Technology Campus, 24.14% for St. Louis Campus and 19.69% for medical employees.

***Conditions Found***

The University did not have an effective system of internal control in place to ensure compliance with the allowable costs/cost principles compliance requirement. The University charges employee benefits initially based upon the University Budget Office rate, which was 27.72%, and are then adjusted to the federally approved rate each cycle.

While performing test work related to the allowable costs/cost principles compliance requirement as related to benefit expenditures, it was identified that one of 40 projects selected for testwork in the R&D cluster had benefit expenditures that exceeded the federally approved rate.

While performing test work related to the allowable costs/cost principles compliance requirement as related to benefit expenditures, it was identified that three of the 15 projects selected for testwork in the Substance Abuse and Mental Health Services program had benefit expenditures that exceeded the federally approved rate.

Schedule of Findings and Questioned Costs

Year ended June 30, 2015

For the first project within the R&D cluster, benefit expenditures exceeded the federally approved rate by \$87.21. Management indicated that this error occurred because a part time employee switched to full time status and the benefit charge was not subsequently adjusted to remove the benefit charge of \$87.21 to the grant.

For the 3 projects in the Substance Abuse and Mental Health Services program, the benefit expenditures exceeded the federally approved rate by \$95.96, \$56.70 and \$117.51, respectively, for a total of \$270.17 relating to the program. Management indicated this error occurred because there was an error in posting the allocation to reduce the benefit amounts charged to the grant award.

***Questioned Costs***

Known questioned costs related to R&D cluster and the Substance Abuse and Mental Health Services Program were \$87.21 and \$270.17, respectively.

***Context***

The conditions found relates to less than 0.01% of the benefit tested in R&D cluster and 0.10% of the benefits tested in the Substance Abuse and Mental Health Services program.

***Cause and Effect***

The University did not have an effective system of internal control in place to ensure that all benefits charged to the grant did not exceed the federally approved rates.

***Recommendations***

We recommend the University strengthen its existing processes and controls relative to ensuring Federal expenditures are in compliance with the allowable costs/cost principles compliance requirement.

***Views of Responsible Officials and Corrective Actions***

The University agrees it must strengthen its existing process and controls relative to ensuring Federal expenditures are in compliance with the allowable costs/cost principles compliance requirement.

The Controller's office will work with the campus HR Departments to establish controls to ensure benefits are not charged to a federal grant when part-time employees switch to full-time status during a pay period. The Controller's office will work with Sponsored Programs offices to develop a monitoring process to identify any errors in posting the allocations to reduce the benefit amounts charged to the Federal awards and ensure that any necessary adjustments are made in a timely manner.
